News Letter  
8-01-07

The Damon Run Conservancy District has worked very hard over the last two years to design, build and install over seven miles of sewer and water infrastructure serving Liberty Township and portions of Portage along the Route 6 and Meridian road corridor.

The district is currently providing service to the following communities:

Eagle Ridge Subdivision	112 Homes	92% lots sold
Timberland Subdivision	153 Homes	68% lots sold
St. Andrews Subdivision	42 Homes	Primary plat approved spring 2007
Luke Oil		
Pro Auto Care		
Keithley Property		
Pet Haven Pet Shop		

The district actively meets with businesses, developments, homeowners and all public and private entities interested in obtaining services. It is the intent and desire for the district to remain in Porter County.

In addition to providing sewer and water service the district has worked with Timberland Subdivision to improve drainage at 900 North and Meridian area as well as the maintenance of Damon Run waterway throughout Timberland subdivision and the adjacent farm to the south.

All district inquiries, comments or applications should be directed to:

Damon Run Conservancy District
